**MOTION FOR SENTENCE
REDUCTION UNDER
18 U.S.C. § 3582(c)(1)(A)
(Compassionate Release)
(Pro Se Prisoner)**

NOTICE

The public can access electronic court files. Federal Rule of Criminal Procedure 49.1 addresses the privacy and security concerns resulting from public access to electronic court files. Under this rule, papers filed with the court should *not* contain: an individual's full social security number or full birth date; the full name of a person known to be a minor; or a complete financial account number. A filing may include *only*: the last four digits of a social security number; the year of an individual's birth; a minor's initials; and the last four digits of a financial account number.

Does this motion include a request that any documents attached to this motion be filed under seal? (Documents filed under seal are not available to the public.)

☒ Yes

☐ No

If you answered yes, please list the documents in section IV of this form.

I. SENTENCE INFORMATION

Date of sentencing: Feb 7, 2019

Term of imprisonment imposed: 155 Mos.

Approximate time served to date: 4 yrs

Projected release date: Aug 11, 2029

Length of Term of Supervised Release: 5 yrs

Have you filed an appeal in your case?

☐ Yes

☒ No

Are you subject to an order of deportation or an ICE detainer?

☐ Yes

☒ No

II. EXHAUSTION OF ADMINISTRATIVE REMEDIES¹

18 U.S.C. § 3582(c)(1)(A) allows you to file this motion (1) after you have fully exhausted all administrative rights to appeal a failure of the Bureau of Prisons to bring a motion on your behalf, or (2) 30 days after the warden of your facility received your request that the warden make a motion on your behalf, whichever is earlier.

Please include copies of any written correspondence to and from the Bureau of Prisons related to your motion, including your written request to the Warden and records of any denial from the Bureau of Prisons.

¹ The requirements for this compassionate release motion being filed with the court differ from the requirements that you would use to submit a compassionate release request to the Bureau of Prisons. This form should only be used for a compassionate release motion made to the court. If you are submitting a compassionate release request to the Bureau of Prisons, please review and follow the Bureau of Prisons program statement.

Have you personally submitted your request for compassionate release to the Warden of the institution where you are incarcerated?

☒ Yes, I submitted a request for compassionate release to the warden on

Sep 2021.

☐ No, I did not submit a request for compassionate release to the warden.

If no, explain why not:

Was your request denied by the Warden?

☒ Yes, my request was denied by the warden on (date): Oct 7, 2021.

☐ No. I did not receive a response yet.

III. GROUNDS FOR RELEASE

Please use the checkboxes below to state the grounds for your request for compassionate release. Please select all grounds that apply to you. You may attach additional sheets if necessary to further describe the reasons supporting your motion. You may also attach any relevant exhibits. Exhibits may include medical records if your request is based on a medical condition, or a statement from a family member or sponsor.

A. Are you 70 years old or older?

☐ Yes.

☒ No.

If you answered no, go to Section B below. You do not need to fill out Section A.

If you answered yes, you may be eligible for release under 18 U.S.C. § 3582(c)(1)(A)(ii) if you meet two additional criteria. Please answer the following questions so the Court can determine if you are eligible for release under this section of the statute.

Have you served 30 years or more of imprisonment pursuant to a sentence imposed under 18 U.S.C. § 3559(c) for the offense or offenses for which you are imprisoned?

☐ Yes.

☒ No.

Has the Director of the Bureau of Prisons determined that you are not a danger to the safety of any other person or the community?

☒ Yes.

☐ No.

B. Do you believe there are other extraordinary and compelling reasons for your release?

☒ Yes.

☐ No.

If you answered "Yes," please check all boxes that apply so the Court can determine whether you are eligible for release under 18 U.S.C. § 3582(c)(1)(A)(i).

☐ I have been diagnosed with a terminal illness.

☐ I have a serious physical or medical condition; a serious functional or cognitive impairment; or deteriorating physical or mental health because of the aging process that substantially diminishes my ability to provide self-care within the environment of a correctional facility, and I am not expected to recover from this condition.

☐ I am 65 years old or older and I am experiencing a serious deterioration in physical or mental health because of the aging process.

☐ The caregiver of my minor child or children has died or become incapacitated and I am the only available caregiver for my child or children.

☐ My spouse or registered partner has become incapacitated and I am the only available caregiver for my spouse or registered partner.

☒ There are other extraordinary and compelling reasons for my release.

Please explain below the basis for your request. If there is additional information regarding any of these issues that you would like the Court to consider but which is confidential, you may include that information on a separate page, attach the page to this motion, and, in section IV below, request that that attachment be sealed.

Defendant was diagnosed with prostate cancer in 2018. Several months ago the B.O.P Medical staff deemed it necessary to transfer defendant to the Federal Medical Center in Butner N.C. to undergo radiation treatment to combat his cancer. Defendant is unvaccinated (for the Coronavirus) and he now has a compromised immune system which makes him highly susceptible to suffering a more serious consequence should he contract the coronavirus. [FMC-Butner has been a hotbed for the coronavirus as it is situated on a parcel of land alongside four additional federal prisons, with the community at large a hotbed as well.]

IV. ATTACHMENTS AND REQUEST TO SEAL

Please list any documents you are attaching to this motion. A proposed release plan is included as an attachment. You are encouraged but not required to complete the proposed release plan. A cover page for the submission of medical records and additional medical information is also included as an attachment to this motion. Again, you are not required to provide medical records and additional medical information. For each document you are attaching to this motion, state whether you request that it be filed under seal because it includes confidential information.

STEWART, Trace
Reg. No.: 71200-050

Dear Mr. Stewart,

Medical staff reviewed your request for a Reduction in Sentence (RIS) to determine whether you met the RIS guidelines in accordance with Program Statement 5050.50. It has been determined that you do not meet the criteria under Terminal, Debilitated or Elderly with Medical Conditions as you do not have a terminal illness, with a life expectancy of less than 18 months and you are independent with your self-care. You also do not meet the age criteria for Elderly with Medical Conditions.

At present, there remains no change to the BOP's RIS criteria based only on possible exposure to COVID-19. The BOP is taking extraordinary measures to contain the spread of COVID-19 and treat any affected inmates. We recognize that you have legitimate concerns and fears about the spread and effects of the virus. However, without meeting any of the current RIS criteria, your concern about being potentially exposed to, or possibly contracting, COVID-19 does not currently warrant an early release from your sentence. Accordingly, your RIS request is denied at this time.

You have the right to appeal this decision via the Administrative Remedy Process. If you choose to appeal, you do not need to complete the informal review, but you would need to include a copy of this memorandum with your appeal. Any decision regarding appeal will be handled in a manner outlined in policy. Additionally, per policy you have a right to file a request for a reduction in sentence with your sentencing court after receiving a BP-11 response or the lapse of 30 days from the receipt of such a request by the Warden's Office.

We are committed to providing you with the necessary and appropriate care for your medical needs.

Sincerely,

T. Scarantino
Complex Warden

FOLLOWUP NOTE

Mr. Stewart is seen today for followup.

I had consulted him on 07/30/2021 by teleconference concerning his prostate cancer.

He had Gleason 7 disease with PSA of 62.9 and was counseled concerning potential treatment options and chose to undergo combination of Lupron and radiation.

A Lupron 45 mg Depot was delivered, and then the patient was just transferred to the FMC to start radiation therapy.

I am seeing him today again to review his diagnosis and treatment options in person.

PHYSICAL EXAMINATION: Vital signs: Stable. Head and Neck: Unremarkable. No palpable lymph nodes. Lungs: Clear. Heart: Regular sinus rhythm. Abdomen: Benign. He is neurologically nonfocal. Digital exam: Firm prostate.

IMPRESSION: This is a 52-year-old gentleman with Gleason 7 prostate cancer, PSA 62.9, metastatic workup negative.

PLAN: I have reviewed with him again the treatment options available for his prostate cancer as well as no further intervention. He still wishes to pursue the combination of Lupron and radiation, which he had consented for previously. I again reviewed with him the role and rationale of radiation and Lupron, our actual treatment procedure and the acute and chronic complications, both remote and expected. He had several additional questions which were answered to his satisfaction. The patient agrees to initiate radiation therapy and we will bring him down shortly for radiation treatment planning. I will keep you posted of his progress.

CONSULTATION REPORT**U.S. DEPARTMENT OF JUSTICE****FEDERAL BUREAU OF PRISONS**

Name: Stewart, Trace Rod Reg. #: 71200-050 DOB: 06/25/1969		Referred By: BUTNER FCI Attending: ALLISON, RON
CHIEF COMPLAINT: "I have prostate cancer. What are my options?"		
Date of Visit: 07/30/2021	Dictation Received: 07/30/2021	Dictation Transcribed: 07/30/2021

Sensitive but Unclassified**CONSULTATION**

Mr. Stewart is seen today for consultation.

HISTORY OF PRESENT ILLNESS: This 52-year-old gentleman was found to have dysuria and an elevated PSA of 49 at the end of 2018. These did not respond to conservative management. As such, the patient was counseled in options and chose to undergo transrectal ultrasound-guided biopsy of the prostate. This revealed Gleason 7 disease. Extent of disease workup was undertaken, including CT scan and bone scan, neither having obvious metastatic finding. The patient was subsequently seen by urology in New Jersey at a subsequent incarceration and reports repeat prostate biopsy several months ago. His PSA was 62.9. This pathology report is pending at this time. He was initiated on Lupron therapy and is seen today for consultation.

PAST MEDICAL HISTORY:

1. Hypertension.
2. Hyperlipidemia.
3. GERD.

REVIEW OF SYSTEMS: Twelve-system review of systems as per HPI.

ALLERGIES: None reported.

PRIOR RADIATION: None reported.

PRIOR CHEMOTHERAPY: He has had 90 days of Lupron therapy.

IMPLANTABLE DEVICE: None reported.

PAIN: None reported.

SOCIAL HISTORY: Former smoker. Social drinker.

FAMILY HISTORY: Prostate cancer reported from his father.

MEDICATIONS: Please see chart.

LABORATORY STUDIES: PSA 62.9.

DIAGNOSTIC STUDIES: Bone scan and pelvic CT reported as without metastatic finding.

PHYSICAL EXAMINATION: Vital signs: Stable. Head and neck: Unremarkable. No palpable lymph nodes. Lungs: Clear. Heart: Regular sinus rhythm. Abdomen: Benign. He is neurologically nonfocal. No Bone pain. Digital exam firm prostate.

IMPRESSION: This is a 52-year-old gentleman with Gleason 7 prostate cancer, PSA 62.9, started on Lupron therapy.

PLAN: I have reviewed his diagnostic studies, charting, and pathology. His case has been reviewed in tumor board. I am seeing him alone for consultation.

We will obtain the results of his most recent prostate biopsy. However, the patient has been initiated on Lupron so we will not repeat bone scan, the first of which was negative. He has no bone pain. I have reviewed with the patient the natural history of prostate cancer. I have reviewed with him treatment options available for this as well as no further intervention. The patient was most interested in pursuing a course of therapy that could minimize clinical progression of disease. I explained to him the concept of a watch and wait approach, an approach by surgery, an approach by radiation, and the continued use of hormonal blockade, either alone or in combination. The patient does not wish to pursue watch and wait or active surveillance. He does not want surgery. I then further detailed him on the role and rationale of radiation, our actual treatment procedure, and the acute and chronic complications, both remote and expected. The potential benefits and consequences of additional Lupron therapy were also described. Morbidity associated with this combined approach include hot flushes, sexual dysfunction, loss of hair in the treatment region, skin reaction and skin injury, bladder frequency and bladder injury, rectal frequency and rectal injury, injury to the normal muscles, nerves, vessels, bones, and other organs of the pelvic region. The patient was knowledgeable concerning his diagnosis and treatment options. He wishes to pursue the combination of radiation and Lupron therapy. After all, questions were answered, informed consent was obtained.

The patient has been originally initiated at an outside institution on Lupron; we will continue this for a cumulative 18 months. Given that he has been on Lupron for 90 days, we will not repeat bone scan. We will obtain his recent path report from a second biopsy and also obtain repeat PSA. I will deliver intensity-modulated radiation therapy to the prostate, seminal vesicles and draining lymphatics of the pelvis. We will keep you posted of his progress and truly appreciate you allowing me to consult in his care.
